The theme for Argus '74
is FRIENDSHIP.
The following, therefore,
is dedicated to
FRIENDS . . .

Mr. Roddy, Vice-Principal

"And I've been a good boy all year."

"Don't believe everything you hear, Santa!"

Mr. Roddy is one of the busiest people in the school. He is in charge of supervision, discipline, assemblies, and parent's night. Mr. Roddy is interested in the curriculum, the courses themselves and how they are being taught. He is also working on changing the attitude of discipline.

The success of a positive attitude of discipline depends upon a number of things. Students must realize the consequences of what they do. The most common problem is skipping classes. The required number of hours needed for a credit is very important. Mr. Roddy also places emphasis on student-teacher

Meet Our New Principal

When Mr. Corless was first asked how he liked his new job, he thought for a moment and then replied, "It's beautiful." He also finds it challenging and interesting.

He is pleased about the school spirit. He believes the students are more aware of the activities this year and said, "We've had some good assemblies so far and 'Spirit Week' was a success". He attributes the success to the House System and the House Deans who are working hard to make the system work.

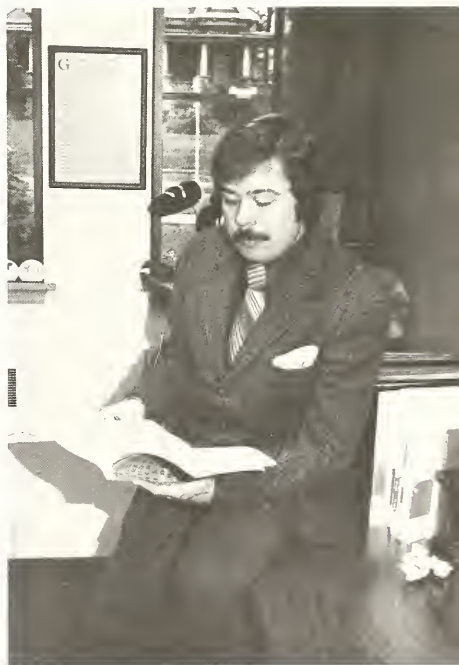

Mr. Corless comments that the non-grading education system is very apparent in our school. More students are completing their five-year studies in four years. East Elgin Secondary School is the only school in Elgin county who gives every person a personal interview so that the non-grading system should work for everyone.

"This year is going to be the best year yet for East Elgin. The school spirit, the success of the assemblies, Commencement, and the way the Staff is working are only a few things that point out that this year is going to be great!"

relationship. He is proud of the teachers' involvement with students, the effort the teachers put into their classes, and the concern they show over students who are underachieving. He says that students should try to develop an open and understanding relationship with the teachers.

Change is important. Mr. Roddy welcomes any delegations that come in with suggestions and answers to some problems within the school. It proves that the students are interested.

"I really want to find out why the students do what they do."

Our Office

Girls

The school just wouldn't run as smoothly as it does if we did not have our office girls. They work all through the year and especially during the first few months of school and exams. They also help organize night school courses. They said, "Sometimes we are more aware of what is changing in education than others in our school." They do all the paper work and know what goes on behind the classroom scene.

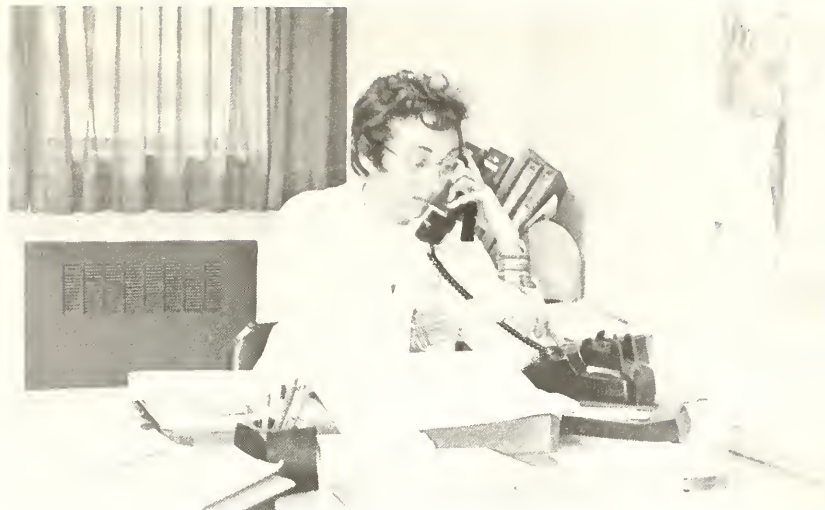

"It's interesting work. The students add a lot of interest, and then there are parents and salesmen that come around. No day is the same!"

They have no big problems and are satisfied with the office setup. This year is the first year that Communications and Business Procedures students are given the chance of gaining valuable experience and insight into the profession of meeting the public.

S. Taylor at work in the Office.

Happy Anniversary

30 Years of Patience

This year is Mrs. Barnsley's 30th anniversary of nursing on September 23, 1973. She was a nurse working during the war in England which was very busy but exciting. After this she came to Canada, first to Stratford then to the Elgin county district where she studied acute nursing and was a supervisor in St. Thomas Elgin General Hospital. In 1969, Mrs. Barnsley came to East Elgin.

Usually, about 25 students come to see Mrs. Barnsley during the course of the day. The most she ever had was 57 students in one day. Mrs. Barnsley treats the everyday illnesses such as headaches and stomach aches. She finds time to lecture too on subjects such as first aid, pregnancy and general health.

Right now she is studying graphoanalysis, finding personality through handwriting. So watch how you sign her book!

Mrs. Barnsley says good health is very important because when you feel well your health improves also. Finally she says to "enjoy whatever you do", and this will help you get into better health.

Some statistics

Last year 3012 students went to the Health Room, of these 2550 were treated immediately.

344 stayed in health room.

33 were sent home.

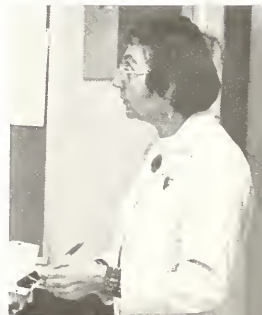

94 received demits to go home.

Of the students that came in, 816 received aspirin.

840 were miscellaneous.

1345 required first aid.

41 were accidents.

Dept. Head

S. Phoenix

Now what have we here?

Science gives students a chance to experiment, discover, and discuss. Students taking science courses learn to experiment and make conclusions, so even if they do not continue in the field of science, this concept is useful in everyday living.

English

English is a subject that is essential to studies and future professions. Every individual must be able to communicate with others and express how he thinks and feels.

NO PHOTO AVAILABLE

M. Horton

Class participation in discussions is essential.

Individual instruction is a great help to some students.

History

The History Department hopes that in their teaching they give the student body a sense of their place in life. History also provides students with background knowledge of their culture and through research develops their ability to communicate with others.

That way to

Mathematics

Mathematics courses aim to train students to work and think on their own and solve problems in a logical pattern. They try to enable students to appreciate the challenge of a problem and the satisfaction of solving it.

What's the answer?

F. Demarchi

J. Namespetra

Geography

Geography aims to make the student familiar with the different environmental and human factors and realize the relationship. Atlases, slides, filmstrips, maps, texts, movies, statistics, photographs, E.T.V. and newspaper articles are used to present the scene of this study.

Siberia!

Commercial

P. Skuce
Commercial Director

D. Skuce

Typing takes CONCENTRATION!

E. Infurnari

M. Thompson

The Commercial Department is a major part of school life because there are many different options involved. The major change this year is the opportunity given to the senior communications and business procedures class to work in the main office. This provides students with a feeling of "being on the job".

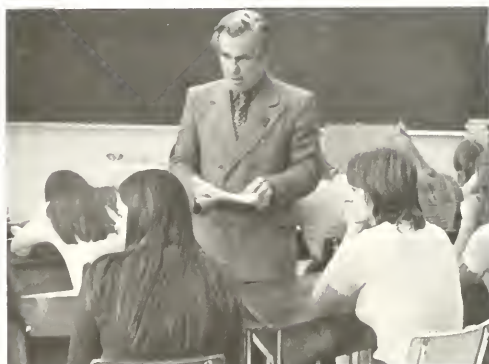

B. Warnock

J. Fletcher

J. McDonald

Getting involved in marketing.

Music

A. Grimes
Subject Chairman

There are numerous reasons why students choose to take music. One is for the enjoyment of playing an instrument. Another is the satisfaction of mastering theories and skills. Music students are also given the opportunity to be a part of the school band.

The instructor works hard too.

One, two, three--One, two, three...

What you hear is what you get!

I. Wambold
Dept. Head

E. Marentette

Modern Languages

Since Canada is a bilingual country, the study of French enables students to understand a part of their culture. The world today is linked very closely because of technological advances and for this reason we must also be able to communicate with other people in other countries.

G. Bardwell

Now what did I learn today?

P. McVeigh

Occupations

Occupational courses give students basic training in areas of individual interests to prepare them for the work field.

F. Hindmarsh
Dept. Head

C. Noble

D. Giles

J. McLean

What makes you think YOU are the Betty Crocker of this school?

Remember you have to eat it!

Home Economics

Home Economics provides the basic skills necessary to manage a home. It branches into other fields such as interior decorating, dress designing, and nutrition.

The development of "artistic vision" is the primary concern of the art course. Both technique and philosophy will be developed in small "contract group" consultation with the instructor.

R. Hill

T. Stacpoole

Why don't you be an educated Bum?

Student Services

The Student Services Department of the school exists for the purpose of assisting students in planning their educational programme, overcoming difficulties which prevent them from getting the most from their schooling, and in greatly expanding their knowledge of the work field.

Resource Centre

The Resource Centre is a major part of student life, because it provides the student with information and recreation. There are many types of media such as magazines, books, tapes, filmstrips, and records available for use.

Ah! Learning and relaxing at the same time.

Very Interesting!

May I help you?

N. Kelly

Technical

Technical courses provide students with basic knowledge which is beneficial to students who progress to engineering or technology courses after secondary school, or to those who want industrial employment immediately after leaving school, or even to those who want knowledge in making home repairs.

Do you think he'll ever learn anything?

O/E BAD '73

FIRST ROW: J. Robinson, J. Passmore, Mr. R. Lapchinski, D. Zimmer, T. Brown.
 SECOND ROW: L. Passmore, J. Lienerth, L. Shackleton.
 ABSENT: K. Theiss, J. Zimmer, P. Brown.

You want me to get my picture taken with that thing?

Don't be shy!

Who said that!

That's the first wedding I've seen on a football field!

I'll drink to that!

For all your office needs

Let's talk.

We want to tell you about our services, and how we do things differently from other banks. And, we want you to tell us how we can help you. With planning your savings. Investments. Mortgages. Helping you budget. Or lending you money.

When we say "let's talk", we mean it.
So drop by soon.

The First Canadian Bank

Bank of Montreal

Serving our customers with the finest in flowers for 30 years. Still in the same location as always, the finest in wedding flowers, cut flower arrangements, potted plants, novelties and gifts; and our service is fast and dependable.

We teach you to lead.

Unlike most universities, we're committed to the total development of our students. Sure we offer an intensive academic programme in Engineering, Science, Arts, or Administration. But there's a lot more to the Military Colleges than classrooms. We're the only university in the country with 27 sports. We're the only one to offer you leadership training with a guaranteed summer job. And, after graduation, we offer you a job that makes the most of your ability to lead. As a commissioned officer in the Canadian Forces. Constructing a landing strip in the Arctic, for example. Or, in other parts of the world, fighting pollution, helping the sick and starving, working for peace instead of for profit. If you want a university education that does something for you, not to you, contact your local Canadian Forces Recruiting and Selection Unit at:

The Military Colleges

You've got to be good to get in.

The time has come to end another day and another year at East Elgin. Behind we leave our spirit to be recaptured again next year, but we take with us much more in memories, friendships and a year we shall never forget.
